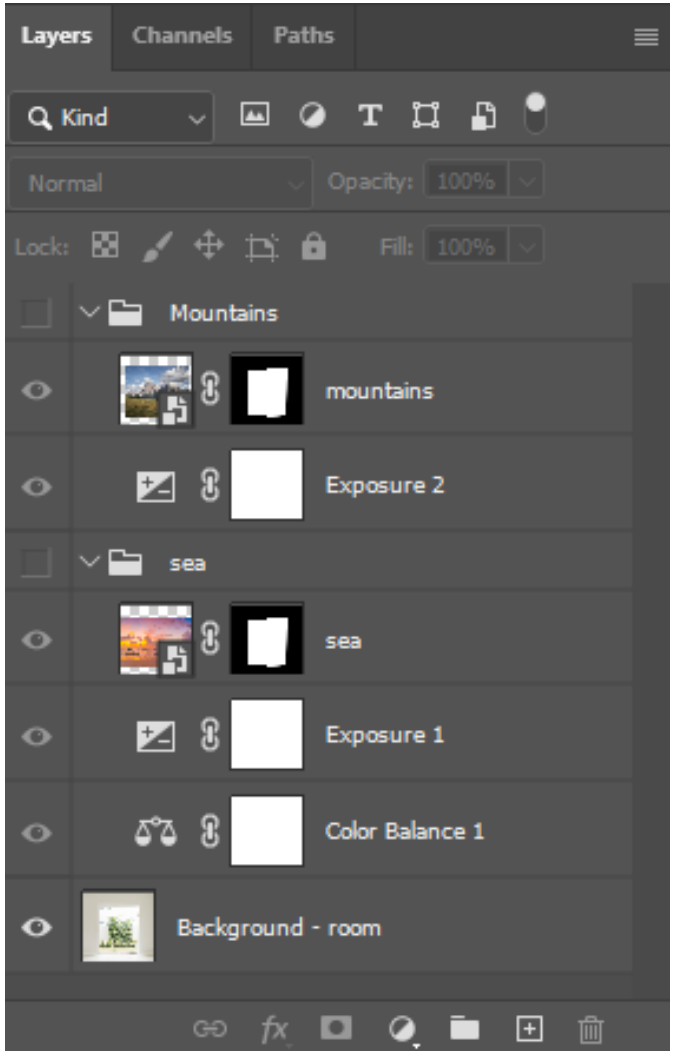
COMPUTER TOOLS IN VISUAL COMMUNICATION

Week 8

Task 1

- Create two photomontages **in the same document**, and export each separately in jpg format
- Please pay attention to the organization of the document, and that there is an option to hide/unhide the group to show/hide the entire montage (image + adjustment layers)
- File dimensions: 100cm x 100cm / 72dpi resolution / RGB colors



Layer organization:

- Mountain Group
- Sea Group
- Background - room image

Task 2

- Use images in the folder Task 2 to create the photomontage shown on the image „TASK 2 – FINAL IMAGE”
- Final image size should be same as the size of the background image, image 1 in the folder

TASK 2 – FINAL IMAGE

Please use the text:

Maybe I should have taken the hat

Task 3

- Use images in the folder Task 3 to create the photomontage shown on the image „LO2B_final_1”

Thank you for your attention!
